# The carefree way to connect to **your world**

When it comes to wanting the world's smallest, most comfortable and best sounding hearing aids, people everywhere turn to Audibel, an American-owned and operated manufacturer of advanced hearing solutions.

Audibel A2 hearing aids are designed to make listening easy and enjoyable again. With their advanced features, they're engineered to:

- Reduce listening effort in noisy environments\*
- Improve listening to music and TV
- Enhance phone calls
- Virtually eliminate whistling and buzzing
- Fit comfortably, customized for your ears

Audibel A2 hearing aids feature Audibel's latest noise reduction and speech preservation system, which is designed to deliver incredible sound clarity even in the noisiest situations.

Audibel A2 can also stream stereo sound from your TV, radio, computer and even your cell phone directly to your hearing aids. With Audibel A2, you can enjoy hands-free phone conversations and listen to TV or radio at the volume you want. Others around you can listen at the volume that's most comfortable for them.

If you have been looking for a hearing aid designed to make conversations comfortable, and TV, music and phone conversations sound like never before, Audibel A2 is it.

# What's Right For **You**?

Audibel A2 hearing aids are designed to accommodate and enhance a variety of listening environments.

What you need will depend on how busy and active you are, and what types of environments you frequent.

# Life without limitations

Combined with our innovative SurfLink® accessories, Audibel A2 wireless hearing aids can also make it easier to enjoy TV, music, cell phone conversations and more — no wires attached!

## **SurfLink Media**

This set-and-forget media streaming solution connects to TVs, MP3 players and more, to wirelessly stream audio directly to your Audibel A2 hearing aids. You can hear the volume at the level you want, while everyone else in the room can listen at the volume they want.

## **SurfLink Remote**

This handy remote lets you adjust and control your Audibel A2 hearing aids with the push of a button.

### **SurfLink Mobile**

Enjoy hands-free phone conversations with this one-of-a-kind device. That's because SurfLink Mobile turns your Audibel A2 hearing aids into both your cell phone microphone *and* receiver:

**Microphone** — Your hearing aids can pick up your voice and send it to the person you're talking to

**Receiver** — SurfLink Mobile streams the voice on the other end of the phone directly to both of your hearing aids

But that's just the beginning. SurfLink Mobile is not only a cell phone transmitter, it's also an assistive listening device, media streamer and hearing aid remote all rolled into one.

SurfLink accessories are compatible with Audibel A2 wireless only.

# Engineered to make hearing **carefree**

## YOU **WANT:**

**A way to hear better in noise**

---

**Help hearing high-frequency sounds**  
(like children's and women's voices)

---

**A personal and comfortable  
listening experience**

---

**No buzzing or whistling**

---

**Reliable, long-lasting hearing aids**

---

**Simplicity and great sound quality**

---

**Direct audio streaming of media devices**

Features may vary by hearing aid style or technology level

## AUDIBEL A2 **DELIVERS:**

A precision microphone technology and advanced noise reduction and speech recognition system designed to amplify meaningful sounds—such as speech—while reducing unwanted background noise

---

The only technology that replicates high-frequency speech cues into lower frequencies, where they're easier to hear

---

Sound compression technology designed to differentiate soft speech from loud, for a more enhanced and natural sound quality

---

Our industry-leading feedback elimination technology makes buzzing and whistling hearing aids a thing of the past

---

HydraShield<sup>®2</sup>, our pioneering water- and wax-repellent moisture protection system, enhances durability and dependability

---

Smart technology that knows when you're on the phone or learns your volume preferences, then automatically adjusts settings for optimal listening

---

Direct-to-hearing-aid streaming of TVs, computers, MP3 players and phones when synced with either SurfLink Mobile or SurfLink Media
